NEW ORLEANS, Oct. 7.- During the past week the elevator property and other property on ending Oct. 6: the river front have been purchased by a Boston syndicate, of whose identity and purpose nothing was known. It was disclosed to-day and the news was confirmed from Boston that the purchaser was the United Fruit Company or Fruit Trust, which controls absolutely the trade in tropical fruits with Central and South America, and that the company had purchased tion of entering the field as a competitor of the Sugar Trust, by raising sugar in the West Indies and Central America and bringing it to New Orleans for refluing. The trade will give the company employment for its large fleet of fruit vessels, which is idle a portion of the year The Fruit Trust has had the sugar scheme unde

fruit vessels, which is idle a portion of the year. The Fruit Trust has had the sugar scheme under consideration for nearly two years.

For two years the capitalitis interested in the United Fruit Company have had a gisantic enterprise on foot involving the production of raw sugar in vast quantities. They first bought a sugar plantation in Costa Rica, where they made experiments, which, it is said, convinced them that the scheme was not chimerical. It was nothing more nor less than alternating with the production of fruit and sugar on the same lands. After demonstrating the success of the plan with the Costa Rica plantation they began to purchase vast tracts of sugar lands in Cuba, and it is said that up to the present time they have acquired over 60,000 acres of the finest sugar lands in Cuba in the vicinity of Cape Nice, Recently they placed an order with the Baldwin Locomotive Works in Philadelphia for ten twenty-three ton plantation locomotives, which will be shipped to the Cuban plantations, which are nearly ready for cultivation. The company will be able to handle its other products very cheaply, as their fruit vessels can be used in carrying sugar when fruit is not in season. It is understood that the property purchased by the fruit company on the river front will probably be used for the erection of a sugar refinery. be used for the erection of a sugar refinery.

On this river the empty houses will be filled, most of them being owned by the American Ice Company, but the outlook on the Kennebec is not so promising.

It is said that the American Ice Company will have several strong competitors in the business here this whiter, representatives of various concerns having been in the State lately looking for sites on which to creet new houses or geiting options on properties that are all ready for operations.

Maine can produce enough ice for the entire Atlantic seaboard, were all the frivileges to be improved, and ice can be harvested at very small cost, for the labor is cheap and the conditions of the very best, while the crop is first class inheteen years in twenty. This year first-class ice has been going begging at 31 a ton, and could have been bought at even a lower price. Freights to Philadelphia and New York have been only 45 to 55 cents a ton.
